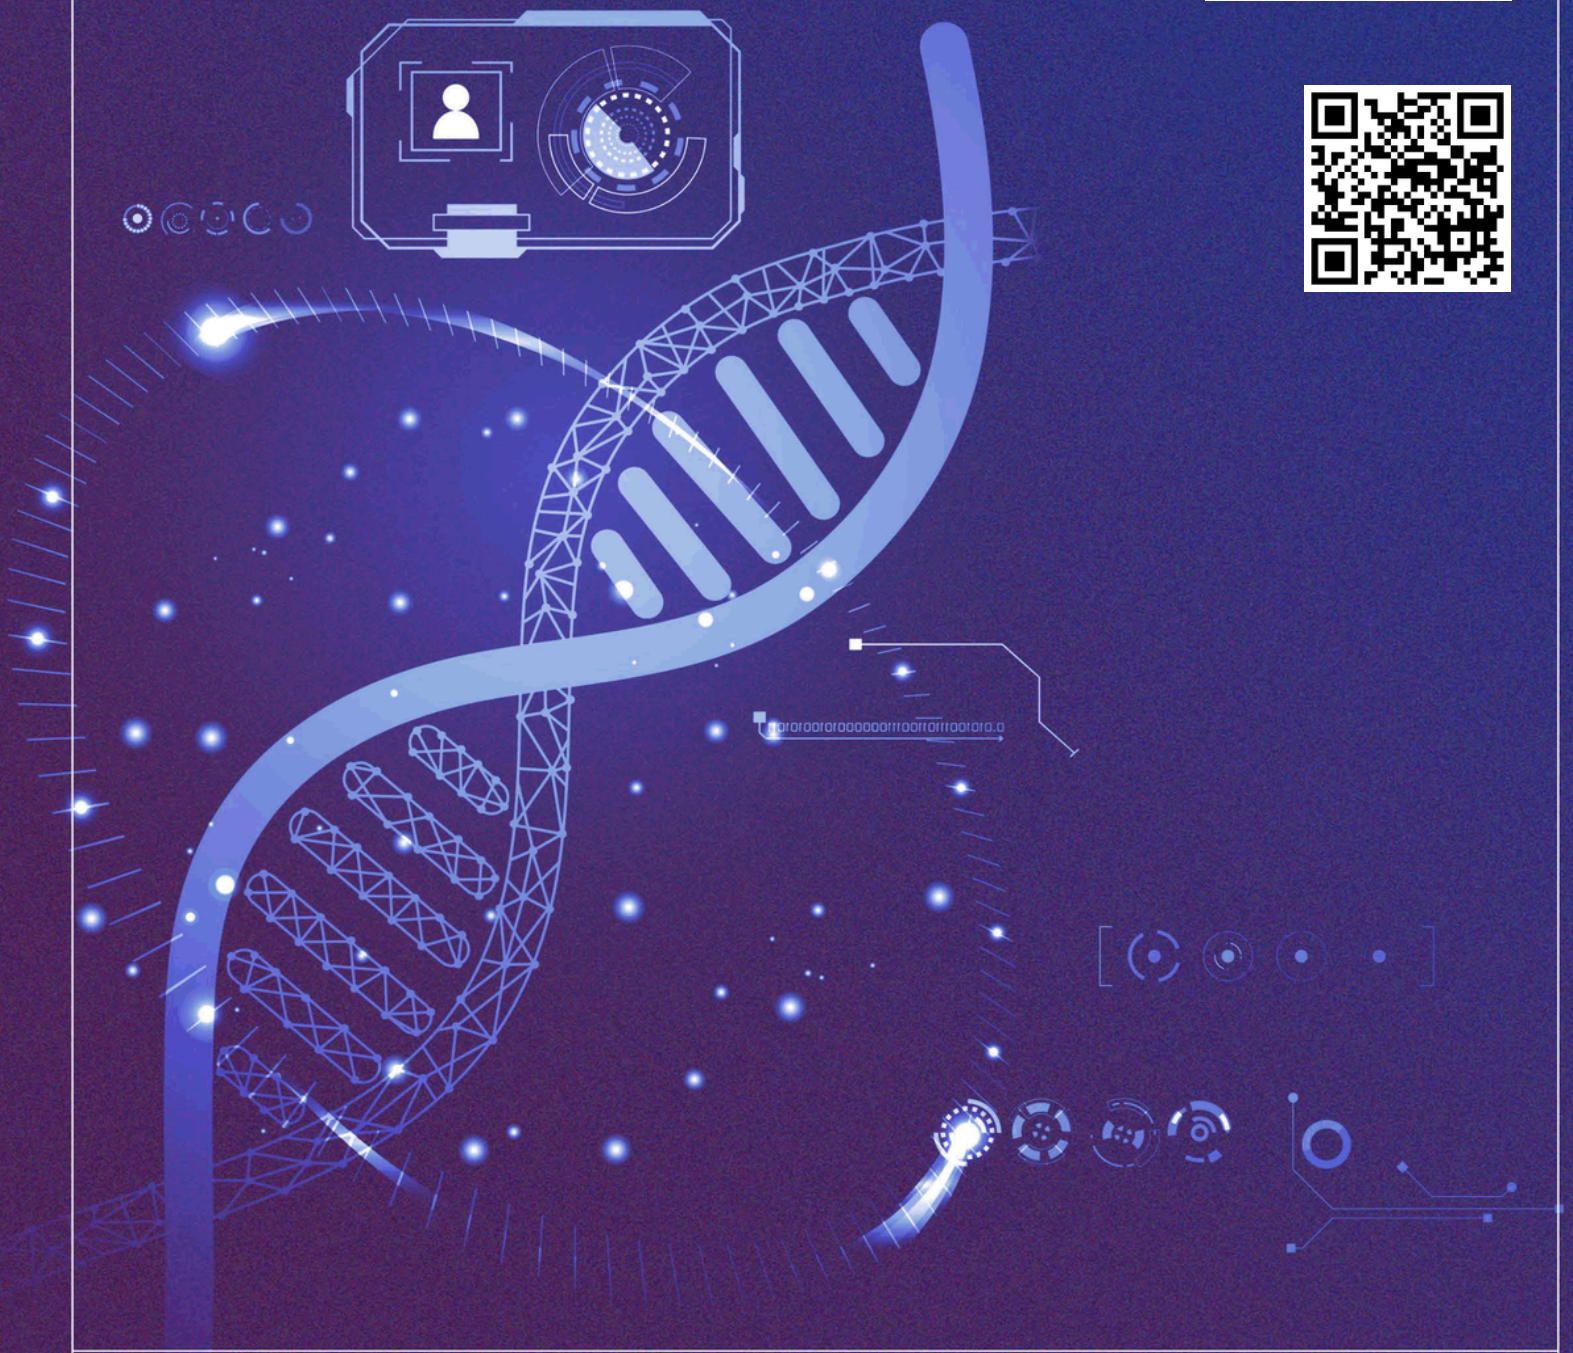
BRIDGE2AI

ALL-HANDS MEETING AND OPEN HOUSE

OCTOBER 20-21, 2026

Zoom ID: 411 715 1651



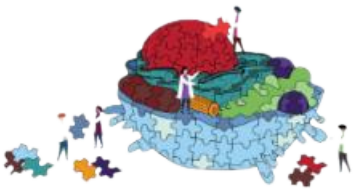
PEOPLE - ETHICS - DATA

BRIDGE2AI - PROPELLING BIOMEDICAL RESEARCH WITH ARTIFICIAL INTELLIGENCE

The Bridge2AI Consortium, funded by the NIH Common Fund, is accelerating the ethical and impactful use of artificial intelligence in biomedical and behavioral research. By building rich, AI-ready datasets and establishing best practices across data science, ethics, and collaboration, we're opening new frontiers in how we understand, treat, and prevent disease.

Grand Challenges

AI/ML for Clinical Care



Functional Genomics

B2AI VOICE

Precision Public Health

Salutogenesis

Bridge Center

- Communications, Meetings, and Portal
- Standards, Practices, and Quality Assessment
- Data Sharing, Dissemination, & Open House
- Teaming and Collaboration
- Ethical, Legal, and Social Implications
- Training, Recruitment, and Mentoring

Visit bridge2ai.org to learn more!

Bridge2AI is more than data - it's a community committed to transparency, trust, and real-world impact. Learn how Bridge2AI is building the foundation for biomedical AI.

TUESDAY • OCT 20, 2026

8:45-8:50 — **Welcome** — Plaza Ball Room

Yael Bensoussan, MD (Co-Chair)
University of South Florida

Azra Bihorac, MBA, PhD (Co-Chair)
University of Florida

Alex Bui, PhD (Co-Chair)
University of California, Los Angeles

8:50-9:05 — **Introduction to Bridge2AI** — Plaza Ball Room

Lucila Ohno-Machado, MD, MBA, PhD
Yale University

9:05-9:25 — **Keynote Address** — Plaza Ball Room

Peter Embi, MD, MS
Director, National Library of Medicine

9:25-11:15 — **Consortium Briefings - Showcase of Achievements** — Plaza Ball Room

Bhavesh Patel, PhD (Salutogenesis)
California Medical Innovations Institute

Alex Bui, PhD (Open House & TRM)
University of California, Los Angeles

Trey Ideker, PhD (Functional Genomics)
University of California, San Diego

Monica Munoz-Torres, PhD (Standards & Teaming)
University of Colorado, Anschutz

Eric Rosenthal, MD (AI/ML for Clinical Care)
Massachusetts General Hospital

Lucila Ohno-Machado, MD, MBA, PhD (CMP & ELSI)
Yale University

Yael Bensoussan, MD (Voice)
University of South Florida

11:15-11:30 — **Break**

11:30-12:30 — **NIH Perspective on the Future of Biomedical AI** — Plaza Ball Room

The Conference Chairs facilitate a Panel with members of NIH leadership.

12:30-1:30 — **Lunch**

1:30-4:30 — **Grand Challenge specific data challenge/hands on activity**

Salutogenesis: Bhavesh Patel & Cecilia Lee	Truman Room
AI/ML for Clinical Care: Eric Rosenthal	Wilson Room
Precision Public Health: David Dorr, Steven Bedrick, & Andrea Krussel	Regency Room
Functional Genomics: Trey Ideker & Kyle Ellrott	Plaza Ball Room

4:30-6:30 — **Poster Session and Tech Fair Networking Opportunity** — Madison/Roosevelt Room

Consortium members and industry partners present indepth information of their exciting and current work. (The posters will be available for viewing through the conference)

WEDNESDAY • OCT 21, 2026

8:45-10:15 — **Panel: Impact of the Bridge2AI Datasets for the research and industry community** — Plaza Ball Room

Participants will offer their end user experience with Bridge2AI products. Panelists:

Ravi Madduri
Argonne

Ria Choudry
University of Massachusetts

Rupal Patel
Northeastern University

Bill Chen
Duke University

Timothy Ruchti & Elias Bitar
Nihon Kohden Digital Health Solutions

Liwei Wang
University of Texas, Austin

Violet Kimble
Yale University

Yann Fossat
Klick Labs

Homa Rashidisabet
University of Illinois, Chicago

10:15-10:45 — **Break**

10:45-12:30 — **Working Group Cross-Cutting Themes** — Plaza Ball Room

Ethical, Legal, & Social Implications
Brad Malin, PhD
Vanderbilt University

Tools for Data Tracking & Indexing
Lucila Ohno-Machado, MD, MBA, PhD
Yale University

Phenopacketizing Bridge2AI
Justin Reese, PhD
Lawrence Berkeley National Laboratory

The Bridge2AI Talent Knowledge Graph
Jake Chen, PhD
University of Alabama, Birmingham

Training, Recruitment, & Mentoring/Open House
Jack Rincon, BS
University of Arizona College of Medicine, Phoenix

12:30-1:30 — **Lunch**

1:30-2:30 — **Consortium Cross-Cutting Workshops**

Team Science Training Workshop: Monica Munoz-Torres, Vikram Aditya Ganesh — Wilson Room

Blockchain Technologies: Tsung Ting Kuo, Lana Kareem — Regency Room

GA4GH Genomic Model Starter Kit: Alex Wagner — Truman Room

2:30-2:45 — **Working Break**

2:45-4:00 — **Consortium Cross-Cutting Workshops**

Team Science Training Workshop: Continued — Wilson Room

4:00-4:30 — **Farewell**

POSTER PRESENTATIONS

Title	Authors
Collaborating with patients to develop AI transparency resources	Laurie L. Novak, PhD, MHSA, Joyce W. Harris, MA, Tauseef Ibne Mamun, PhD, Bradley Malin, PhD
Advancing AI/ML Workforce Development Through Multimodal Biomedical Data: Outcomes from the AIM-AHEAD Bridge2AI AI-READI Training Program	Toufeeq A. Syed, PhD, MS(1); Gordon Gao, PhD(2); Damaris Javier, PhD(3); Linda M. Zangwill, PhD(4); Sally L. Baxter, MD, MSc(4); Mark Christopher, PhD(4); Deandra Maevry, MEd(1); Jennifer Bagdasarian, PhD(2); Jamboor Vishwanatha, PhD(3)
Training the Next Generation of AI/ML Researchers Using Multimodal Biomedical Data: Insights from the Bridge2AI AI-READI Training Program	Linda M. Zangwill, PhD; Sally L. Baxter, MD, MSc; Victoria Patronilo; Virginia De Sa, PhD; Gary Cottrell, PhD; Mark Christopher, PhD
From Framework to Field: Developing and Iterating an Ethical Data Governance Checklist for AI-Ready Health Research Repositories	Nebeker C, Evans BJ, Contreras J, Ghosh, S, Bernier, A, Kolak, J, Clark, T, Munoz Torres, M and the Bridge2AI ELSI, Standards and Data Sharing and Dissemination Working Groups
Applied Blockchain Technology for Process Improvement	Lana Kareem, Chi Wing Ng, Pritham Ram, Juliet Lam, Hua Xu, Lucila Ohno-Machado, and Tsung-Ting Kuo
Building Data Science Capacity Through the Bridge2AI AI-READI Bootcamp: Lessons Learned	Mark Christopher, PhD; Linda M. Zangwill, PhD; Sally L. Baxter, MD, MSc; Victoria Patronilo; Gary Cottrell, PhD; Virginia De Sa, PhD
Development of a Synthetic Dataset for Type 2 Diabetes Research	Nicholas J. Jackson, Natalia Espinosa-Dice, Chao Yan, Zhuohang Li, Xiaoqian Jiang, Aaron Y. Lee, Bradley A. Malin
FAIRSCAPE: An Integrating Framework for Standards-based Deep Interpretability of AI Data and Metadata	Timothy Clark, Sadnan Al Manir, Max Levinson, Justin Niestroy, Chris Churas, Nathan Sheffield, Brynne Sullivan, Karen Fairchild, Monica Munoz-Torres, Sarah Ratcliffe, Jillian Parker, Trey Ideker
From DUA to AI: an end-to-end demonstration of AI-readiness of Bridge2AI data	Sujay Patil, Justin Reese, Mónica Muñoz Torres, Vikram Adithya Ganesh, Peter Robinson, Daniel Danis, Patrick Nairne, Rouven Reuter, Sek Won Kong, Chris Mungall

POSTER PRESENTATIONS

Title	Authors
Towards A Foundation Model for Clinical Voice Biomarkers	John Ramos, Olivier Elemento, Alexandros Sigaras, Joseph T. Colonel, Iman Hajirasouliha, Satrajit S. Ghosh, Yael Bensoussan, Bridge2AI-Voice Consortium, Anais Rameau
Beyond Big Team Science – A Dynamic Teaming Framework for Large-Scale Collaborative Research	Monica C Munoz-Torres, Colleen Cuddy, Sean Davis, Goldie Komaie, Janani Ravi, Jake Y. Chen, Grace Gonzalez, Jamie Toghranegar, Christine Velez, Sara J. Singer , Pamela Foster, Toyin Ajisafe, Vikram Adithya Ganesh, Yulia Levites Strekalova
Bridge2AI Standards Portfolio: Tools for Trustworthy, AI-Ready Biomedical Data	Mónica Muñoz Torres, Timothy Clark, Alex H. Wagner, Christopher G. Chute, Harry Caufield, Christopher J. Mungall, Milen Nikolov, Justin Reese, Sek Won Kong, Satrajit Ghosh, Bhavesh Patel, Manlik Kwong, Andrew Williams, Vikram Adithya Ganesh, Nomi L. Harris, Amy Heiser, Jessica Mitchell, Samia Ahmed, Orion Banks, Jennifer Bowser, Matthew Cannon, Sigfried Gold, Nick Grosenbacher, Jay Hodgson, Marcin P. Joachimiak, Kori Kuzma, Maxwell Adam Levinson, In-Hee Lee, Edilberto Amorim, Gari Clifford, Nayoon Kim, Sadnan Al Manir, Camille Nebeker, Justin Niestroy, Evan Ng, Ann Novakowski, Julia Owen, Sujay Patil, Katie Perry, Jamie Shaffer, Nathan Sheffield, Jordan Wilke
Can You Trust a Machine-Written Datasheet? Rubric Evaluation and Provenance Receipts in D4D	Joachimiak, Caufield, Banks, Reese, Nikolov, Clark, Mungall, Munos-Torres
Standards Explorer	J Harry Caufield, Orion Banks, Sigfried Gold, Kori Kuzma, Kathryn Perry, Nick Grosenbacher, Adam Hindman, Mieko Hashimoto, Amy Heiser, Vikram Adithya Ganesh, Christopher Mungall, Christopher Chute, Jay Hodgson, Alex Wagner, Milen Nikolov, Samia Ahmed, and Mónica Muñoz-Torres
Bilingualism and Acoustic Voice Features in the Bridge2AI-Voice Dataset	Samantha Salvi Cruz, Rahul Brito, Satrajit Ghosh, Bridge2AI-Voice Consortium, Yael Bensoussan
A Consortium PM's role – crossing the Bridge to AI	Pritham Ram

POSTER PRESENTATIONS

Title	Authors
Probing Clinical Information in Pretrained Speech Encoder Representations for Unilateral Vocal Fold Paralysis	Mohamed Ebraheem, Yael Bensoussan, John Michael Templeton
The Bridge2AI-Voice V4 Dataset	Bridge2AI-Voice Consortium
Development of a Synthetic Dataset for Type 2 Diabetes Research	Nicholas J. Jackson, Natalia Espinosa-Dice, Chao Yan, Zhuohang Li, Xiaoqian Jiang, Aaron Y. Lee, Bradley A. Malin
Early Diagnosis of fatty pancreas by FibroScan can prevent DMtype2	Beer Mahmoud Elbahy ,Ghadeer Mohamed Rashad
HIT-MAP: A Scalable Approach to Multimodal Mapping of Subcellular Organization	Gege Qian, Joonwon Kim, Richa Tiwari, Benjamin J Polacco, Antoine Forget, Leah V. Schaffer, Hark Kyun Kim, Jiahao Gao,Yuan Zhou, Gwendolyn M Jang, Marcus R. Kelly, Xiaoyu Zhao, Helene Foussard, Liudeng Zhang, Nevan Krogan, Trey Ideker, Alejandro Chavez
Non – alcoholic fatty pancreatic disease,as emergence Diseae in Gastroenterology for our alerts and it,s complications	Reda Albadawy , Abeer El bahy and Ghadeer Rashad
A Comparative Study of Acoustic Feature Extraction Using Computerized Speech Lab and a Web Prototype of the Novel LIS-N Application	Shrramana Ganesh Sudhakar ; Sabrina Musteric ; Stephanie Watts; Jamie Toghranegar; Yaël Bensoussan
Voice Signal Audit: What Acoustic Features Reveal in Bridge2AI-Voice	Sri Sri Jaithra Varma Manthena, Tom Pollard
Interpretable Autism Spectrum Disorder Prediction Models for General Screening and Disease Discrimination Tasks from Audio Features	Faris Raza M.S., Peter Y. Washington, Ph.D.

POSTER PRESENTATIONS

Title	Authors
Privacy-Preserving Clinical Speech Embeddings under Multi-Recording Identity-Linkage Attacks	Sanjita Prajapati, Ashutosh Dumka, Matthew Rizzo, Anuj Sharma
Genomic characterization of the neurodegeneration cohort from Bridge2AI	Navneet Aujla, Starry Rajkumari, Kobe Huynh, Frans Budiman, Sudip Saha, Shailesh Nadkarni, Lesley Wiesenfeld, Virginia Wesson, Omar Ghaffar, Linda Mah, Jed Meltzer, Angela Roberts, Frank Rudzicz, Jordan Lerner-Ellis
Cluster-Based Acoustic Representations for Voice-Based Discrimination of Parkinson's Disease Using the Bridge2AI Voice Dataset	Uday Pratap Singh, MDS, Heather Smith, MA, CCC-SLP, CBIS, Sean I. Savitz, MD, Bradley Malin, PhD, Xiaoqian Jiang, PhD
When Missingness Matters: Healthcare Data Availability and Predictive Accuracy in Electronic Health Records	Daniel Musachio, Aaron Bousinna, PhD, Amy M. Sitapati, MD
Task-Conditioned Anonymization as a Release Policy for Clinical Voice Sharing	Nida Saddaf Khan, Nicholas J Jackson, Bradley A Malin, Xiaoqian Jiang
Enabling Researchers to Develop and Deploy Algorithms in the Hospital: The Nihon Kohden Digital Health Platform	Timothy Ruchti, Elias Bitar
Rose Gold: Standardizing LLM-Assisted Clinical Annotation	Xiaoqian Jiang; Gilles Clermont; Eric S. Rosenthal; Ciera McCrary; Rishi Kamaleswaran; Xiao Hu; Joo H. Yoon; Manlik Kwong; William Ashe; Andrew J. Barros
Implementation Science of a Multicenter AI Model for Cardiac-Arrest Neuroprognostication	Morteza Zabihi, Declan O'Scannlain, Aya Shnawa, Gianna Benevides, Hannah Hollow, Samantha Brazeau, Chloe Friedman, Michael J. Young, Parisa Rashidi, David M. Greer, Samuel B. Snider, Edilberto Amorim, David Y. Hwang, Eric S. Rosenthal
Toward an Ethical Framework for Development and Deployment of AI in Neurocritical Care: Progress from Bridge2AI for Clinical Care (CHoRUS)	Young MJ1., Williams I2, Cordes A3, Kwak HJ1, Zabihi MJ1, Bihorac A, Hu X, Geer AJ1, Li XJ1, and Rosenthal EJ1, on behalf of the CHoRUS Research Network Investigators

POSTER PRESENTATIONS

Title	Authors
BRIDGE2AI Talent Knowledge Graph	Zhandos Sembay
Exploring cellular architecture with spatial proteomics and AI-generated virtual cells	Jan N. Hansen, William D. Leineweber, Marina Brogley, Viviana Macarelli, Alexandra Johannesson, Jenny Fall, Frederic Ballllosera Navarro, Ulrika Axelsson, Emma Lundberg
Stewarding Openness: Navigating Responsible Use After Release	Julia Kolak, Camille Nebeker
A Review of Risk Perceptions and Explanation Needs in Patient-Facing AI	Tauseef Ibne Mamun, Joyce Webb Harris, Laurie Lovett Novak
The Bridge2AI Ethics and Trustworthy AI Working Group: Lessons Learned and Challenges for the Future	ETAI Working Group, Jean-Christophe Bélisle-Pipon, Ellen W Clayton, Barbara Evans, Samantha Hurst, Xiaoqian Jiang, Camille Nebeker, Laurie Lovett Novak, Bradley Malin
What Makes a Voice Sound Forward? Acoustic Features of Perceived Resonance in Bridge2AI-Voice	Ruiqing 'Stephanie' Fan, Shaheen Awan, Zachary Abrams, Ashwini Joshi
Diagnosis of Fatty Pancreas by FibroScan for early prediction of DM type 2: An Egyptian pilot Study	Reda Albadawy , Abeer Elbahy and Ghadeer Masoud.
Correcting Pretrained Diffusion Priors for Unrolled Accelerated MRI Reconstruction	Tian Yu, Chao Ma
Voice Differences in Pediatric Obstructive Sleep Apnea Across Speech Tasks	Siyu Miao, MSc, BSc; Joyce Samuel, BA; Shumit Saha, PhD; Ruth Huntley Bahr, PhD, CCC-SLP, BCS-CL; Justin Levinsky BSc, Nikolaus E. Wolter, MD, MSc, FRCSC, FACS; Bridge2AI-Voice Consortium; Jennifer M. Siu, MD, MPH, FRCSC

TECHNOLOGY FAIR

Professional Portal	Title	Presenter
AI-READI (Salutogenesis)	Anatomy-Aware Augmentation and Semi-Supervised Adaptation for Cross-Vendor Retinal Layer Segmentation in OCT	Yang “Jaxon” Zhang Yale University
AI-READI (Salutogenesis)	FLIO Imaging of the Retina	Stéphanie Magazzeni Heidelberg Engineering
AI-READI (Salutogenesis)	Continuous Glucose Monitoring using the AI-READI dataset	Bill Chen Duke University
AI-READI (Salutogenesis)	Retinal Age Prediction using the AI-READI dataset	Homa Rashidisabet, PhD University of Illinois Chicago
Bridge2AI Standards Working Group	Standards Explorer	Harry Caufield Lawrence Berkeley National Laboratory
Bridge2AI Standards Working Group	AnyVar	Jennifer Bowser Nationwide Children's Hospital
Bridge2AI Teaming & Collaboration Working Group	Bridge2AI Talent Knowledge Graph	Zhandos Sembay & Jake Chen University of Alabama at Birmingham Jiawei Xu University of Texas, Austin
CM4AI	Cytoscape Web: A Cell Map Explorer	Chris Churas UC San Diego
CM4AI	FAIRSCAPE Studio	Justin Niestroy University of Virginia
CHoRUS	CHoRUS/CTSA Tools	Dileep Gunda Emory University
CHoRUS	IBIS EICON DICOM Deidentification tool	IBIS
